April 9 Olympic Torch Actions

The Beijing Olympic Torch arrives in San Francisco on April 9 as part of the world wide torch relay. This will be the only visit to the whole North America (US & Canada). Join us and help shed the light on continued great pain and suffering of the 50 million people of Burma under a 46 year long brutal dictatorship due to China's great military, economic and diplomatic support. China is exploiting Burma's market and her bountiful resources (especially oil and gas) to support its burgeoning economy while people in Burma struggle to live hand to mouth under the world's worst oppression imposed upon them.

China's gain, Burma's Pain!
